CAREER SUMMARY

Results-driven PHP Developer with over five years of experience specializing in PHP and its frameworks, including Laravel, Yii, CodeIgniter, Symfony, and Magento. Proven track record in developing both standalone and backend applications. Proficient in leveraging PHP frameworks to deliver robust, scalable solutions tailored to meet client needs. Adept at collaborating with cross-functional teams to deliver high-quality projects on time and within budget. Strong problem-solving skills and a passion for staying updated with the latest technologies in web development.

SKILLS AND STRENGTHS

- Proficient in PHP and its frameworks: Laravel, Yii, CodeIgniter, Symfony, and Magento.
 - Strong understanding of object-oriented programming principles and design patterns.
 - Experienced in developing standalone applications and backend systems using PHP.
 - Skilled in building RESTful APIs for seamless communication between front-end and back-end systems.
 - Proficient in HTML, CSS, and JavaScript for developing responsive and interactive web applications.
 - Familiarity with database management systems such as MySQL, PostgreSQL, and MongoDB.
 - Knowledgeable in version control systems like Git for efficient collaboration and code management.
 - Ability to troubleshoot and debug complex issues to ensure smooth operation of web applications.
 - Excellent communication skills and a collaborative team player.
 - Proactive in staying updated with the latest trends and best practices in web development to deliver innovative solutions.
-

PROFESSIONAL ACCOMPLISHMENTS

- Implemented Scalable Solutions: Developed and implemented scalable solutions using PHP frameworks such as Laravel and Symfony, resulting in improved performance and increased efficiency for the company's web applications.
- Enhanced User Experience: Implemented user-centric features and enhancements that resulted in a measurable improvement in user experience metrics, including increased user engagement and decreased bounce rates.
- Streamlined Backend Operations: Designed and implemented backend systems and APIs that streamlined data management and communication processes, resulting in a more cohesive and efficient workflow for internal teams.
- Resolved Critical Issues: Successfully identified and resolved critical issues in legacy codebases, ensuring the stability and reliability of mission-critical web applications, and minimizing downtime.
- Mentored Junior Developers: Mentored and coached junior developers, fostering their professional growth and development, and contributing to the overall improvement of team performance and morale.

- **Implemented Security Measures:** Implemented robust security measures and best practices to protect web applications from vulnerabilities and cyber threats, ensuring data integrity and user privacy.
-

WORK HISTORY

Transpost Technologies, Mumbai, India, Senior Fullstack Engineer, (02/2023)-(08/2023)

Tata Consultancy Services, Mumbai, India, System Engineer, (02/2021)-(01/2023)

Fireblaze Technologies, Nagpur, India, Parttime Fullstack Engineer, (06/2019) - (01/2021)

Smart Digital Web n Mobile Technologies, Nagpur India, Project Intern, (01/2019)-(06/2019)

OSK Consultant, Nagpur India, Web Developer Intern, (04/2018)-(06/2018)

Technocronies, Nagpur India, Frontend Intern, (05/2018)-(07/2018)

EDUCATION

Msc Applied Cybersecurity, 09-2023 - Present, SB Jain Institute of Technology, Wales, UK

Bachelor's in engineering (Information Technology), 2016 - 2020, SB Jain Institute of Technology, Nagpur, India
